The Evolving Boundaries of Defence: An Assessment of Recent Shifts in Defence Activities

Series: Contributions to Conflict Management, Peace Economics and Development

Editor: Renaud Bellais, ENSTA Bretagne, France

ISBN: 9781783509744, EISBN: 9781783509652, ISSN: 1572-8323

List Price: £72.95, €97.95, \$124.95 Publication date: 13 August 2014

This volume analyses key features of recent and on-going transformations of defence issues, from four perspectives. The first section considers those factors which are redefining the boundaries of defence, with a focus on defence economics; part two focuses on the spatial footprint of defence and its transformations and analyses the insertion of defence activities within urban landscapes; the third part analyses how armed forces manage their human resources; and the final section considers the international landscape of defence.
